

2017 NATIVE PLANT FLATS AND INDIVIDUAL PLANTS

FLAT A — Butterfly Host Plants (\$55)

48 plants, 6-packs of 8 species

Medium tall, 24-48"
Dry to moist soil
Full to partial sun
Host plants to several native MN butterflies

Swamp Milkweed – *Asclepias incarnata*
Wild Blue Indigo – *Baptisia australis*
Purple Prairie Clover – *Dalea purpureum*
Showy Tick-Trefoil – *Desmodium canadense*
Wild Lupine – *Lupinus perennis*
Black-eyed Susan – *Rudbeckia hirta*
Smooth Blue Aster – *Symphotrichum laeve*
Heart-leaved Golden Alexander – *Zizia aptera*

FLAT B — Butterfly Food Plants (\$55)

48 plants, 6-packs of 8 species

Medium tall, 24-48"
Dry to moist soil
Full to partial sun
Food plants to several native MN butterflies

Fragrant Hyssop – *Agastache foeniculum*
Butterfly Milkweed – *Asclepias tuberosa*
Purple Coneflower – *Echinacea purpurea*
Meadow Blazingstar – *Liatris ligulistylis*
Wild Bergamot – *Monarda fistulosa*
Stiff Goldenrod – *Solidago rigida*
New England Aster – *Symphotrichum novae-angliae*
Hoary Vervain – *Verbena stricta*

FLAT C — Boulevard Garden (\$55)

48 plants, 6-packs of 8 species

Short plants, 12-24"
Dry to medium soil
Full to partial sun

Nodding Wild Onion – *Allium stellatum*
Butterfly Milkweed – *Asclepias tuberosa*
Cream Wild Indigo – *Baptisia bracteata*
White Prairie Clover – *Dalea candidum*
Prairie Smoke – *Geum triflorum*
Path Rush – *Juncus tenuis*
Showy Beardtongue – *Penstemon grandiflorus*
Silky Aster – *Symphotrichum sericeum*

FLAT D — Pocket Prairie (\$55)

48 plants, 6-packs of 8 species

Medium tall, 24-48"
Dry to medium soil
Full to partial sun

Rattlesnake Master – *Eryngium yuccifolium*
Western Sunflower – *Helenium occidentalis*
Rough Blazingstar – *Liatris aspera*
Grayheaded Coneflower – *Ratibida pinnata*
Slender Penstemon – *Penstemon gracilis*
Little Bluestem – *Schizachyrium scoparium*

wildonestwincities.org

You are always welcome to attend our chapter meetings and events:

Metro area Chapters of Wild Ones, Native Plants, Natural Landscapes, host topic meetings and summer tours throughout the year. We also co-host a regional native plant conference, Design With Nature, each February.

Monthly meetings include timely topics, and are held September-November, January, and March-May.

All public meetings and tours are free and open to the public unless otherwise noted.

For more information about our organization, visit our national website at

www.wildones.org

For more information about our chapter meetings and events, visit

www.wildonestwincities.org

WHY NATIVE MINNESOTA PLANTS?

Native plants were here long before lawnmowers, sprinklers and garden chemicals. Once established, plants native to this region are low maintenance and do not require care typically associated with gardens. Native perennials build a strong, deep root system before focusing on the production of leaves, stems and flowers, resulting in plants that are sturdy and draught tolerant. Native plants are beautiful, and provide food and shelter for wildlife including butterflies, dragonflies, pollinators and birds.

MATCHING SPECIES TO LOCATIONS

It is important to match species requirements with site features such as soil type, light conditions, moisture and drainage for the planting to be successful. Mesic soil types drain well but contain moisture all or most of the time.

SITE PREPARATION

You can start now! Proper site preparation gives your plants a great head start. Removal of competitive weeds and grasses must be accomplished before planting begins. One option: cover the area with 4-6 layers of newspapers to block out sunlight. Saturate the newspaper with water to prevent it from blowing away, then apply clean shredded mulch. A week later, after the newspaper has softened, punch holes in it and insert your new plants.

ABOUT WILD ONES

Wild Ones, Native Plants, Natural Landscapes, is a national non-profit organization that informs and teaches people how to use native plants in their landscapes. Wild Ones distinguishes itself from other garden organizations by encouraging gardening with native plants and moving away from the use of chemicals, watering, excessive mowing and other practices commonly used by traditional gardeners.

WE INVITE YOU TO JOIN

Include a [separate check](#) for \$37 with your plant sale order. To keep on top of events and news in the native plant world, members receive the bi-monthly electronic Wild Ones Journal and access to online articles—a wonderful resource for native plant gardeners. Your membership fee is also a tax deductible donation. For more information, visit www.wildonerg.org.

IMPORTANT NOTES ON PLANT SALE

Flats A to E include eight 6-packs of each species and have been designed to cover about 40-50 square feet. Plants should be spaced 12-16 inches apart as most will spread out as they mature. A good rule of thumb: One plant per square foot. Species may be substituted if there is a crop failure.

Twin Cities Chapter 2017 Native Plant Sale

Our 11th Annual Native Plant Sale offers 5 collections and 16 individual favorites for pre-order!

Additional plants, some donated by members, will be for sale on pick-up day.
